SUMMARY

Full Stack Developer with hands-on project experience in building scalable web applications. Skilled in backend API development, database design, and integrating real-world features into production systems. Looking for an opportunity to contribute, learn, and grow as a developer.

TECHNICAL SKILLS

Programming: Python

Backend: Django, FastAPI, REST APIs

Frontend: React, HTML, CSS

Databases: MySQL, PostgreSQL

Auth & Security: JWT, bcrypt

Tools: Git, GitHub, Postman, VS Code

PROJECTS

RedIron Gym – Full Stack Fitness Platform

Link: <https://roaring-scone-cfda07.netlify.app/>

Tech Stack: React, Django, PostgreSQL

- Built a full stack fitness platform with gym mode and shop mode in a single application
- Developed backend APIs using Django REST Framework for workouts, equipment, and user data management
- Designed database structure using PostgreSQL to handle users, workouts, and performance tracking
- Implemented features like workout logging, analytics, and structured fitness content modules
- Integrated frontend and backend to deliver a smooth and responsive user experience

KidneyAI – Detection System

Link: <https://kidneystone-blond.vercel.app/>

Tech Stack: React, FastAPI, Python

- Built a web application for detecting kidney stones from medical images using image-based prediction workflow.
- Developed backend APIs using FastAPI for image upload, prediction, and report handling
- Implemented image classification workflow with trained deep learning model for prediction results
- Managed user reports and result data for structured output and usability
- Deployed full stack application for real time usage and testing

EDUCATION

B.Tech in Electronics and Communication Engineering

10/2022 – 04/2026

BVC Institute of Technology and Science, Andhra Pradesh

CGPA: 7.27/10

ACHIEVEMENTS

- 2nd Prize – Robotics Challenge, HackerTribe
- 3rd Prize – IoT Fire Alarm Model, MakeSkilled Expo
- National Hackathon Participant, Utkarsh HackSprint
